### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Leonard Tachner on 14 January 2004.

The application has been amended as follows:

1. In regards to the specification:
  - a. Deleted the reference character "35", page 7 line 24.
  - b. Inserted the following reference character after the term "primer", page 7 line 24.  
-- 36 --
  - c. Deleted the reference character "23", page 8 line 6.
  - d. Deleted the phrase "14 and 16", page 8 line 20.
  - e. Inserted the following reference character after the term "projectile", page 8 line 20.  
-- 10 --
  - f. Deleted the term "rifle", page 8 line 26.
  - g. Inserted the following term prior to the reference character "26", page 8 line 26.  
-- gas gun --
  - h. Deleted the reference character "14", page 9 line 4.

- i. Inserted the following reference character between the terms “stage will”, page 9  
line 4.

-- 16 --

2. In regards to the claims:

- a. Inserted the following phrase between the terms “stage having”, claim 1 line 5.  
-- positioned behind said first stage and --

The amendment was made to better define the term “stage”, such that it would clearly read over a tethered darts as shown in U.S. Patent No. 5,698,815 to Ragner.

The following is an examiner’s statement of reasons for allowance:

Claim 1 is allowed, since the art of record does not show alone or in combination: a second stage positioned behind said first stage and having a high voltage source and at least one wire tether connected to said first stage for transmitting said electrical energy to said electrical contact.

Claims 2-12 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following documents show the state of the art in the field of Multi-Stage Projectile Weapon for Immobilization and Capture.
